

SENDE SCHLUSS BANDRIDER

Travelparty

There are usually three of us travelling together.

2 x Band
1 x Mercherin
(Possibly + 1 - 2 x Roadie)

Backstage

Backstage area with sufficient seating, as well as changing facilities and space for luggage is desirable.

Catering

Food:

All members of our travel party do not eat meat or follow a vegan diet. Accordingly, please provide vegan alternatives for the catering, as this will ensure that all of us are catered for. Please provide brief confirmation of this.

Drinks:

Beer (generally open to any brand)
and non-alcoholic beverages (water, soft drinks, juices, etc.)

Accommodation

Normally, we require sleeping accommodation for the specified number of people. It does not necessarily have to be a star-rated hotel, but basic requirements such as functioning and clean sanitary facilities must be met (shower at the location or accommodation desirable).

If we are travelling home on the same evening, we will notify you promptly or provide you with the information before concluding the contract.

Parking and Loading

A parking space for one van must be kept free in the immediate vicinity of the venue.

At least one person should be on site who is familiar with the venue and has access to keys if necessary.

A storage area separate from the audience and secured against theft is required for the period between load-in and sound check, as well as between the gig and load-out.

Merchandise

The band carries its own merchandise. Please provide tables and lighting in the designated area. If possible, in the concert hall. The organiser has no rights to the band's merchandise revenue.

Addition

If parts of the rider cannot be implemented or if questions arise, we are of course available for enquiries.
